Protecting devices and data: review

Cyber security · Level 2 · Unit check

In this unit

- Updates close the door
- Back it up: lose a phone, not your work
- Two-step sign-in and passkeys
- Safe Wi-Fi at school, at home and in town

The big ideas

- An update closes a door everyone knows about
- Three copies, two kinds, one away, one unplugged
- A stolen password alone isn’t enough
- Money and marks over mobile data

Team quiz

1. Make teams of four
2. Read each question aloud; teams agree on one answer
3. Reveal the answer and ask one team to explain why
4. Write the hardest question on the board for tomorrow

Let’s discuss

1. Which habit will you set up first, and on which device?
2. Which question surprised you, and why?
3. Which habit will you teach your pupils this week?

Exit ticket

- One habit I will set up this week, and on which device
