Share with care

Cyber security · Level 2 · Lesson 3

In this lesson you will

- Ask before you post someone else.
- Spot fakes, and check before you share.
- Help someone who is bullied online.

Key ideas

- Their photo, their choice
- Never share private images
- Strong feeling? Pause
- Four checks before you share

Activity: Fact or fake?

1. Warm-up (3 min): Remember a rumour that spread at school.
2. Check (8 min): Run the four checks on three posts.
3. Decide (4 min): Share, don’t share, or check more?
4. Share (5 min): Explain one decision to a partner.

Use posts you write yourself, or real ones with every name removed. Never use private images or posts that make fun of someone.

Let’s discuss

1. Why do fakes often spread faster than corrections?
2. What would you do if a friend posted your photo without asking?
3. How can you help someone who is bullied without making it worse?

Exit ticket

- One of the four checks + a post I’d use it on.
