Lesson plan · for the teacher

Data science in the classroom: unit check

Data science · Level 1 · Unit check

Time	Materials
40 min	Board, chalk, paper. No devices needed.

Learning goals

- The data science loop
- Middles and spread
- Charts that fit and tell the truth
- Careful claims and private pupils

Activity: Team quiz

1. Teams (2 min): Make teams of four and give each team a sheet for its answers.
2. Quiz (20 min): Read each question aloud; each team agrees on one answer and writes it down.
3. Explain (10 min): Reveal each answer and ask a team to explain it with an example from the unit.
4. Wrap-up (8 min): Work through the question most teams got wrong, together on the board.

Discussion

- Which idea from this unit will you use first?
- Which school record will you explore with your class?
- What will you change about sharing results?

Exit ticket

- One habit I will use this week, and where.

Try it in class tomorrow

Pick one school record, ask one measurable question of it with your class, and report the answer with a middle, a spread and one honest chart, without naming any child.

Worksheet · for pupils

Data science in the classroom: unit check

Data science · Level 1 · Unit check

Name _____ Class _____ Date _____

1 **Which is the best data question for a class to investigate?**

- ◯ How many pupils walk to school each day this week?
- ◯ Is walking good?
- ◯ Do pupils like our school?

2 **Put the data science loop in order.**

- ☐ Explain
- ☐ Explore
- ☐ Collect
- ☐ Ask

3 **Complete the sentence.**

For 2, 3, 3, 4 and 8, the median is _____ and the mean is _____.

Word bank: 3 · 8 · 6 · 4

4 **One extreme value moves the median more than the mean.**

- ◯ True
- ◯ False

5 **Match each question to its chart.**

Attendance week by week	• • • •	Scatter chart
Pupils per class	• • • •	Bar chart
Height and arm span of each pupil	• • • •	Line chart
