Exploring a dataset

Data science · Level 2 · Lesson 4

Today we will

- Follow a five-question routine.
- Spot gaps and oddities.
- Write findings with evidence.

Remember

- Know the table before concluding.
- Oddities first, comparisons later.
- A finding needs a number and a source.

Five questions, three findings

1. Warm-up (5 min): Where would you start?
2. Teach (8 min): The routine.
3. Explore (15 min): Groups take a table.
4. Write (7 min): Three findings.
5. Wrap-up (5 min): What did we find out?

Let’s discuss

1. Which question found the most surprises?
2. Why check oddities before comparing groups?
3. What is your next question?

Exit ticket

- Write one finding from today with a number and a source.
