Lesson plan · for the teacher

Exploring data: unit check

Data science · Level 2 · Unit check

Time	Materials
40 min	Board, chalk, paper. No devices needed.

Learning goals

- Histograms and shapes
- Spread and outliers
- Scatter and correlation
- A routine for exploring

Activity: Team quiz

1. Teams (2 min): Make teams of four and give each team a sheet for its answers.
2. Quiz (20 min): Read each question aloud; each team agrees on one answer and writes it down.
3. Explain (10 min): Reveal each answer and ask a team to explain it with an example from the unit.
4. Wrap-up (8 min): Work through the question most teams got wrong, together on the board.

Discussion

- Which idea will you use first?
- Which table will you explore?
- Which claim will you question?

Exit ticket

- One finding I will look for this week, and where.

Try it in class tomorrow
Explore one school table with a class using the five questions, and share three findings with numbers and sources.

Worksheet · for pupils

Exploring data: unit check

Data science · Level 2 · Unit check

Name _____ Class _____ Date _____

1 **What does each bar of a histogram show?**

◯ How many values fall in its bin ◯ One pupil's value ◯ The mean

2 **In data skewed right, the median is usually above the mean.**

◯ True ◯ False

3 **Match each term to its meaning.**

Standard deviation	• • • •	A value far from the rest
IQR	• • • •	Spread of the middle half
Outlier	• • • •	Typical distance from the mean

4 **Complete the rule.**

Q1 is 20 and Q3 is 28, so the upper fence is _____ .

Word bank: 40 · 36

5 **A journey time of 300 minutes appears. What do you do first?**

◯ Check whether it is a typo or true ◯ Delete it ◯ Report it as the average
