Deciding with data

Data science · Level 4 · Lesson 4

Today we will

- Write a clear data question.
- Design a fair trial.
- Decide with numbers and voices.

Remember

- Measures before data.
- Compare with a similar group.
- Data informs; people decide.

Plan a fair trial

1. Warm-up (5 min): Hunch or evidence?
2. Teach (8 min): The later-start trial.
3. Plan (15 min): Your own trial.
4. Share (7 min): Pitch it.
5. Wrap-up (5 min): What did we find out?

Let’s discuss

1. What is your comparison group?
2. Whose views will you ask?
3. How will you share a result that disappoints?

Exit ticket

- Trial: 20 → 14. Comparison: 19 → 17. Work out the effect.
