Training and testing

Data science · Level 3 · Lesson 2

In this lesson you will

- Split data to train and test.
- Read training and test errors.
- Spot overfitting.

Key ideas

- Remembering is not learning.
- Test once on unseen data.
- A big gap means overfitting.

Hidden cards

1. Warm-up (5 min): Memorise or learn?
2. Build (10 min): A rule from ten cards.
3. Test (10 min): Five hidden cards.
4. Wrap-up (5 min): What did you find out?

Let’s discuss

1. Did your rule work on the hidden cards?
2. Why not peek at the test cards?
3. What is overfitting?

Exit ticket

- In one sentence, why do we keep a test set?
