Final project: let the computer find the best plan

Let the computer search: knapsack, routes, timetables: final project

The challenge

- The best trip bag under a weight limit
- The shortest route to visit three friends
- A club timetable with no clashes

Your milestones

- Try them all, or think ahead
- Shortest paths
- The bus route
- Timetables with CP-SAT

Build it

1. Pick an idea and write the plan
2. Reuse your milestone work
3. Test it: where does it work, where does it fail?
4. Explain it to a partner in your own words

Let's discuss

1. What would change if one part of your project changed?
2. Where did it fail, and what did you change?
3. What would you build next?

Before you go

- One thing I understand now that I didn't before this project.
