A school policy for agents

AI agents · Level 4 · Lesson 4

Today we will

- Answer the six questions of an agent policy.
- Keep pupils’ data to the least, and decide who is responsible.
- Weigh cost and fairness, with a paper way for every pupil.

Remember

- Jobs by the stakes; grades and discipline stay with people.
- The least data, kept close; the law and children first.
- A named person approves and answers; a plan for mistakes.

Policy workshop

1. Warm-up (5 min): Where have you seen rules for phones or the internet at school?
2. Teach (8 min): The six questions, cost and fairness.
3. Write (15 min): Each group answers one question.
4. Build (8 min): Put the answers on one page.
5. Wrap-up (4 min): Choose a review date, then the exit ticket.

Prepare the six questions on a poster and the one-page template. Use made-up examples only, with no real pupils' names or marks.

Let’s discuss

1. Which job should agents never do at our school?
2. How do we keep things fair for pupils with no phone or data?
3. Who should be our named lead, and why?

Exit ticket

- Write one rule for our agent policy, and which of the six questions it answers.
