Lesson notes · for you

The helper's toolbox

AI agents · Primary school · Lesson 3

Time	Materials
20 min	Six small cards; A pen; A friend or someone at home

Learning goals

- Pick the tool that fits a question.
- Say what a good helper does with no tool, or a missing detail.
- Check what a helper filled in.

Activity: Activity: The toolbox game

1. Make (5 min): Write one tool on each of six cards: weather, calculator, timetable, reminder, route, library. Draw a small picture on each.
2. Play (8 min): One person asks ten questions. The helper picks the right card, asks for a missing detail, or says "I can't" when no card fits.
3. Swap (5 min): Change roles. The new asker tries to include one question with a missing detail and one with no tool at all.
4. Count (2 min): Count how many times the helper picked a card, asked, or said "I can't".

Use paper cards only. Ask about made-up places, like Kafi and Dala, not about real addresses.

Discussion

- Why is "I can't" sometimes a good answer?
- Which details does a weather tool need?
- How can you tell that a helper copied something wrongly?

Check yourself

- Write one question with no tool for it, and what a good helper says.

Try it this week

Make a toolbox of cards with a friend: one tool on each card. Your friend asks things, and you pick a card, ask what's missing, or say "I can't".

Worksheet

The helper's toolbox

AI agents · Primary school · Lesson 3

Name _____ Class _____ Date _____

1 **You ask the helper to buy you new shoes, but it has no shopping tool. What should a good helper say?**

◯ "Done! Your shoes are on the way." ◯ "Sorry, I can't do that." ◯ "Here's a joke instead."

2 **Match what the helper does to the reason.**

It says "I can't do that"	• • • •	The question is a sum
It asks "Which village?"	• • • •	Someone switched the tool off
It says the weather tool is off	• • • •	A detail is missing
It uses the calculator	• • • •	No tool fits the job

3 **When a helper says "I can't do that", it must be broken.**

◯ True ◯ False

4 **Which questions should make a helper ask you something first? Choose all that apply.**

☐ "What's the weather tomorrow?" ☐ "Remind me to call Grandma." ☐ "What is 6 + 7?"

☐ "How far is it from Kafi to Dala?"

✎ **If you had a helper with only three tools, which three would you choose, and what could it not do? You can write a few words, or just think about it.**
