Lesson notes · for you

Ask first!

AI agents · Primary school · Lesson 4

Time
20 min

Materials
Paper and a pen; Two cards: one says YES, one says NO; Your family, or a friend

Learning goals

- Tell jobs that look things up from jobs that do things.
- Read a request before you say yes or no.
- Keep passwords and private things away from helpers.

Activity: Activity: Yes or No

1. Warm-up (3 min): Sort five jobs into “look things up” and “do things”: the weather, sending a photo, the timetable, buying a game, deleting a message.
2. Write (6 min): Write eight requests a helper might ask before acting. Hide at least three traps: the wrong group, the wrong words, or a password.
3. Play (8 min): Someone reads each request as the helper. Hold up YES or NO, and say why before the next one.
4. Share (3 min): Say which trap was the hardest to spot, and what you would tell a younger child about asking first.

Use made-up names and messages only. Never write a real password, even as a joke.

Discussion

- Which jobs can a helper do without asking?
- Why is “no” always allowed?
- What would you do if a helper did something strange?

Check yourself

- Write one job that needs your yes, and one that doesn’t.

Try it this week
Play “Yes or No” with your family: someone plays a helper and asks before doing things (“Shall I send this message to Grandma?”). Read each one, say yes or no, and say why.
