Lesson plan · for the teacher

Data in your school: unit check

Data engineering · Level 1 · Unit check

Time	Materials
40 min	Board, chalk, paper. No devices needed.

Learning goals

- Data all around the school
- Ask a question, then collect
- Charts and summaries that tell the truth
- Pupils' data needs care

Activity: Team quiz

1. Teams (2 min): Make teams of four and give each team a sheet of paper for its answers.
2. Quiz (20 min): Read each question aloud from the quiz sheet; each team agrees on one answer and writes it down.
3. Explain (10 min): Reveal each answer and ask one team to explain why it's right, using an example from the unit.
4. Wrap-up (8 min): Write the question most teams got wrong on the board, and work through it together.

Discussion

- Which idea from this unit will you use first?
- Which sheet in our school would you tidy first?
- What will you change about how you share pupils' data?

Exit ticket

- One habit I will use this week, and where I will use it.

Try it in class tomorrow
Pick one sheet your school keeps, make a tidy copy with pupil numbers instead of names, and draw one honest chart from it with your class.

Worksheet · for pupils

Data in your school: unit check

Data engineering · Level 1 · Unit check

Name _____ Class _____ Date _____

1 **In a tidy table of pupils, what is one column?**

◯ One fact about every pupil, such as their class ◯ One pupil ◯ The total of the marks

2 **A Total row inside the data can make a computer's average wrong.**

◯ True ◯ False

3 **Which of these make a good collection sheet? Choose all that apply.**

☐ The unit in each column heading ☐ Fixed codes such as P, A and L

☐ Dates written however each person likes ☐ Columns for everything, just in case

☐ Dates written one way, such as 2026-03-02

4 **Match each word to what it means.**

CSV	• • • •	Facts such as health or religion that need the most care
Tally marks	• • • •	The middle value once the values are sorted
Median	• • • •	Lines for counting, in groups of five
Sensitive data	• • • •	A table as plain text, with commas between the values

5 **Your survey's minutes are 12, 15, 9, 14 and 400 (a typo for 40). Which summary is most affected by the typo?**

◯ The mean ◯ The median ◯ The count
