Data in your school: review

Data engineering · Level 1 · Unit check

In this unit

- Data all around the school
- Ask a question, then collect
- Charts and summaries that tell the truth
- Pupils’ data needs care

The big ideas

- Tidy tables: one row per thing, one column per fact
- Start from a question; collect only what it needs
- Bars start at zero; the median resists typos
- Share the task, not the child

Team quiz

1. Teams (2 min): Make teams of four.
2. Quiz (20 min): Read each question; teams agree on one answer.
3. Explain (10 min): One team explains each answer.
4. Wrap-up (8 min): The hardest question goes on the board.

Let’s discuss

1. Which idea from this unit will you use first?
2. Which sheet in our school would you tidy first?
3. What will you change about how you share pupils’ data?

Exit ticket

- One habit I will use this week, and where I will use it.
