h A school bell that rings at 7:30	☐	☐

2 Finish the sentence

Use words from the box.

Word box: **examples** **patterns** **predictions** **rules**

AI is a computer system that learns _____ from _____ and makes _____.

3 Your turn

Draw or write one thing that might use AI. What could it learn from?

Draw here

_____

_____

_____

Challenge

The school bell rings at 7:30 every day. How could a bell “learn” instead of following a rule?

_____

_____
