Lesson plan · for the teacher

How chatbots write

AI · Level 1 · Lesson 2

Time
45 min

Materials
Board, chalk, paper. No devices needed.

Learning goals

- See how a chatbot builds an answer
- Learn the word “token”
- Understand why fluent ≠ true

Activity: Class game: the human chatbot

1. Write: “In the morning the pupils open their …”
2. Pupils vote on the next word
3. Add the winner, vote again
4. Talk about why some words are more likely

15 minutes · board and chalk

Discussion

- Why does a chatbot sound so sure of itself?
- When would a likely answer still be wrong?

Exit ticket

- Finish: “A chatbot writes by …”
- Name one fact you would double-check

Try it in class tomorrow
Write half a sentence on the board and let pupils vote on the next word — then explain that a chatbot does the same, millions of times.

Worksheet · for pupils

How chatbots write

AI · Level 1 · Lesson 2

Name _____ Class _____ Date _____

1 **Put the steps in order.**

- [ ] It stops when the answer is complete
- [ ] It adds the word and predicts again
- [ ] It predicts a likely next word
- [ ] The chatbot reads your question

2 **Complete the sentence.**

A chatbot writes one _____ at a time by choosing a likely _____ piece.

Word bank: token · next · book · random

3 **If a chatbot sounds confident, its answer must be true.**

◯ True ◯ False

4 **What do we call the small pieces of text a chatbot reads and writes?**

_____

✎ **How would you explain "next-word prediction" to your pupils in one sentence?**

_____

_____

_____
