Lesson plan · for the teacher

Sensors: unit check

IoT · Level 1 · Unit check

Time	Materials
45 min	Board, chalk, paper. No devices needed.

Learning goals

- What is a sensor?
- Reading numbers: units and scales
- Build a rain gauge
- Data in class: record, chart, decide

Activity: Team quiz

1. Make teams of four
2. Read each question aloud; teams agree on one answer
3. Reveal the answer and ask one team to explain why
4. Write the hardest question on the board for tomorrow

Discussion

- Which idea will you use first?
- Which question surprised you, and why?
- What will you tell your family about this unit?

Exit ticket

- One idea I will use, and when I will use it

Try it in class tomorrow
Pick the habit from this unit your pupils need most, teach it this week, and tell a colleague how it went.

Worksheet · for pupils

Sensors: unit check

IoT · Level 1 · Unit check

Name _____ Class _____ Date _____

1 **Which of these is a sensor?**

- ◯ A pump that waters the school garden
- ◯ The light sensor that switches on a solar lamp at dusk
- ◯ A scoreboard showing the match score

2 **Match each part to its job.**

Sensor	• • • •	Acts, such as pumping water or sounding a buzzer
Display	• • • •	Shows the reading to people
Actuator	• • • •	Notices something and turns it into a number

3 **“28” is a complete temperature reading.**

◯ True ◯ False

4 **Your class compares Monday’s and Tuesday’s temperatures. Which make the comparison fair?**

- ☐ Both read at 8 am
- ☐ Both read in the same shady spot
- ☐ One read in the sun, one in the shade
- ☐ Both read with eyes level with the liquid
- ☐ One in °C and one in °F

5 **Put the rain gauge steps in order.**

- ☐ Read it at the same time each day
- ☐ Place it in open ground
- ☐ Add a mm scale and the funnel
- ☐ Add stones and water; mark the 0 line
- ☐ An adult cuts off the bottle’s top
