Lesson notes · for you

A language model, and changing one

University, scale 2

Time
45 min

Materials
A phone with Darsi; Paper for one hand-worked step; The slides from the kit

Learning goals

- A guess, not a lookup
- Unless a tool searches

Activity: In the lab

1. Teach one new job
2. Name what stayed frozen

Discussion

- What did not move?

Check yourself

- Fine-tuning here changed which layer?

Try it this week
Write: what fine-tuning changed here, and what it did not have the size to change.

Worksheet

A language model, and changing one

University, scale 2

Name _____ Class _____ Date _____

1 **Fine-tuning, in the small lab, changes…**

- ◯ The last layer, on a few examples
- ◯ Every weight in a model the size of the internet
- ◯ The spelling of the training text

2 **A language model looks facts up as it writes.**

- ◯ True
- ◯ False

3 **Match the limit.**

Frozen layers	• • • •	A cost of changing a model
New last layer	• • • •	The only part the small lab teaches
Old skill crowded out	• • • •	Weights that did not move

4 **Order a small fine-tune.**

- ☐ Teach the last layer with a few examples
- ☐ Freeze every layer but the last
- ☐ Start from a model that already exists

What stayed frozen?
