Check its work

AI agents · Level 2 · Lesson 3

Today we will

- Check a call before it runs, not just the answer.
- Apply five strict rules to proposed calls.
- Keep a record of what ran and who said yes.

Remember

- Check after the call is written, before it runs.
- The right tool, words from you or a result, the right shape.
- Simple rules catch slips; a person gives the final yes.

Be the checker

1. Warm-up (5 min): How did “tidy” become “tisums”?
2. Teach (8 min): The five rules, on a poster.
3. Be the checker (15 min): Groups mark each card green or red.
4. The log (7 min): Record each decision and who signed.
5. Wrap-up (5 min): Which slip was hardest? Then the exit ticket.

Prepare ten cards before the lesson, about a third with planted slips: a class that doesn’t exist, a time like 25:00, a misspelt word. Use made-up names only.

Let’s discuss

1. Why is the answer too late to check?
2. Which of the five rules would you never switch off?
3. Who at our school should read the agent’s log?

Exit ticket

- Write one proposed call with a slip in it, and the rule that stops it.
