Lesson plan · for the teacher

AI basics: unit check

AI · Level 1 · Unit check

Time	Materials
45 min	Board, chalk, paper. No devices needed.

Learning goals

- Spot the AI around you
- How machines learn from examples
- Good data, fair AI
- Check before you trust

Activity: Team quiz

1. Make teams of four
2. Read each question aloud; teams agree on one answer
3. Reveal the answer and ask one team to explain why
4. Write the hardest question on the board for tomorrow

Discussion

- Which idea will you use first?
- Which question surprised you, and why?
- What will you tell your family about this unit?

Exit ticket

- One idea I will use, and when I will use it

Try it in class tomorrow
Pick the habit from this unit your pupils need most, teach it this week, and tell a colleague how it went.

Worksheet · for pupils

AI basics: unit check

AI · Level 1 · Unit check

Name _____ Class _____ Date _____

1 **Which of these is most likely to use AI?**

◯ A calculator ◯ A solar lamp on a 6 pm timer ◯ Voice typing on a phone

◯ A school bell that rings at 7:30

2 **If a machine works by itself, it must be AI.**

◯ True ◯ False

3 **Put the steps of machine learning in order.**

☐ Use: make predictions

☐ Test on new examples

☐ Train: find patterns

☐ Label them

☐ Collect examples

4 **Match each word to its meaning.**

Training data	• • • •	The system’s best guess — it can be wrong
Label	• • • •	The stored patterns that training produces
Model	• • • •	The answer given to an example, like “spam”
Prediction	• • • •	The examples a system learns from

5 **Why do we test a model on examples it has never seen?**

◯ To check it learned the pattern, not just the examples ◯ To make the model run faster

◯ Because old examples are deleted ◯ To teach it new words
