Your school's AI policy

AI · Level 4 · Lesson 2

Today we will

- Suggest rules for using AI in our class, with a reason for each.
- Agree five rules together and vote on the wording.
- Explain how our rules keep learning honest and people safe.

Remember

- Good rules say why, not just which app: apps change, reasons last.
- Rules work best when the people who follow them help to write them.
- We review our rules when things change.

Our class AI charter

1. Warm-up (5 min): Ask when AI could help you learn, and when it would stop you learning.
2. Groups (12 min): Each group writes three rules on strips, with a reason for each.
3. Gather (8 min): Groups read their rules; put similar ones together on the board.
4. Vote (10 min): Agree five rules and vote on the clearest wording for each.
5. Wrap-up (5 min): Copy the charter onto a large sheet, and everyone initials it.

Keep the charter to five rules in pupils' own words, each with a reason. Make sure one rule covers privacy (no names, photos or marks in AI tools) and one covers saying how you used AI. Put a review date on it.

Let’s discuss

1. Which of our rules will be hardest to keep, and why?
2. What should happen when someone breaks a rule, and who decides?
3. What would make us change a rule next term?

Exit ticket

- The rule in our charter that matters most to you, and why.
