Check the facts

AI · Level 2 · Lesson 3

Today we will

- Explain hallucinations: invented facts, numbers, quotes and sources.
- Check a claim against two trusted sources.
- Check photos, videos and voices before you share them.

Remember

- AI can sound sure and still invent things, even whole sources.
- Check what matters in two trusted sources: asking the chatbot again isn’t checking.
- Can’t find it anywhere trusted? Don’t use it, and don’t share it.

Fact detectives

1. Warm-up (3 min): Guess which of three claims is made up.
2. Spot the risky bits (5 min): Underline numbers, dates, names, quotes and sources.
3. Check (10 min): Check three claims in the textbook or with a teacher.
4. Share or not? (4 min): Decide what to do with a forwarded photo.
5. Wrap-up (3 min): Write your own three-step checking habit.

For a revision group or at home. Prepare a short AI-style answer on a topic from your textbook with one wrong date and one invented source in it, three claims for the warm-up, and a forwarded photo (printed or described).

Let’s discuss

1. Why doesn’t asking the chatbot “Are you sure?” count as checking?
2. Which sources do you trust, and why?
3. What would you do if a relative forwards a video you think is fake?

Exit ticket

- Write the three questions you'll ask before you share a photo or video.
