AI and society: review

AI · Level 4 · Unit check

In this unit

- Who decides what’s fair?
- AI and the work of tomorrow
- Design an AI solution
- Test and pitch it

The big ideas

- Ask five questions of any AI: its values are people’s choices
- AI changes tasks more than whole jobs, and creates new work
- Start with people and their problem; AI only if it’s needed
- Test with real users, explain in plain words, and name the risks

Team quiz

1. Make teams of three or four: friends, your AI club or family
2. Read each question aloud; each team agrees on one answer
3. Reveal the answer, and one team explains why
4. Write down the hardest question to revise tomorrow

Let’s discuss

1. Which of the five questions will you ask first about the next AI you meet?
2. Which question surprised you, and why?
3. What problem near you would you design an AI for, if it’s needed at all?
