Leading computing with few devices: review

Programming · Level 4 · Unit check

In this unit

- Unplugged, then plugged
- One phone, many pupils
- Code on paper
- A scheme of work

The big ideas

- Unplugged teaches the idea; link it to code within the week
- Roles and swaps make one phone work for many
- Paper exercises teach and assess fairly
- A shared scheme, with progression, outlasts any one teacher

Team quiz

1. Make teams of four, with the four roles
2. Read each question aloud; teams agree on one answer
3. Reveal the answer and ask one team to explain why
4. Swap roles after every question

Let’s discuss

1. Which idea will you put into practice first?
2. Which question surprised you, and why?
3. Who in your school will you share this with?
