Lesson notes · for you

Give instructions: unit check

Programming · Level 1 · Unit check

Time	Materials
20 min	Paper and a pen. No device needed.

Learning goals

- Exact instructions
- Loops
- If this, then that
- Find and fix bugs

Activity: Activity: The robot relay

1. Warm-up (3 min): Say one idea you remember from each of the four lessons.
2. Plan (7 min): In teams, write a robot program to reach a flag on a chalk grid, with at least one loop.
3. Run (7 min): A pupil from another team is the robot and follows your program exactly.
4. Fix (3 min): If the robot misses, find the first wrong card and fix only that one.

Discussion

- Which lesson did you like best, and why?
- Which question was hardest?
- Where will you use loops or rules at home?

Check yourself

- One thing I can now tell a robot to do

Try it this week

Program a person at home: write robot cards to get them from the door to a chair. Did your program work the first time? If not, find the bug!

Worksheet

Give instructions: unit check

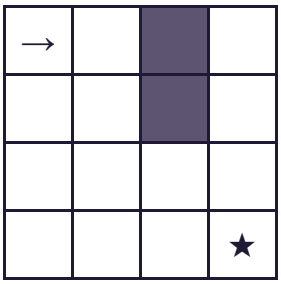

Programming · Level 1 · Unit check

Name _____ Class _____ Date _____

1 **What is an algorithm?**

◯ A kind of robot ◯ Exact steps, in order ◯ A fast computer

2 **Walk the robot around the wall to the flag, with 5 cards at most.**

Cut out cards (↑ forward, ↶ turn left, ↷ turn right) and lay out a program that takes the robot to the ★. Write it here:

3 **"Forward × 4" moves the robot 4 squares.**

◯ True ◯ False

4 **Put the steps for planting a seed in order.**

☐ Water it

☐ Cover it with soil

☐ Put the seed in the hole

☐ Make a hole in the soil

5 **The lamp goes on IF button A OR button B is pressed. Nobody presses anything. Is the lamp on?**

◯ Yes ◯ No
