Draw it: charts

Data engineering · Level 1 · Lesson 3

In this lesson you will

- Draw a pictogram and a bar chart.
- Read a bar chart: tallest, shortest, how many more.
- Check that a chart is fair.

Key ideas

- A key says what one picture means.
- The tallest bar has the most.
- Fair charts start at zero.

Our fruit chart

1. Vote (3 min): which fruit?
2. Draw (6 min): a bar chart from zero
3. Read (3 min): tallest and shortest
4. Check (3 min): is it fair?

Show one unfair chart on the board, with bars starting at 50, so pupils can spot the trick.

Let’s discuss

1. Why must bars start at zero?
2. What does the key in a pictogram tell you?
3. How did the red dots show us something was wrong?

Exit ticket

- Draw a tiny bar chart with three bars, and write its title.
