Lesson notes · for you

Patterns in data: unit check

Data science · Level 2 · Unit check

Time
25 min

Materials
Paper and a pen. No device needed.

Learning goals

- Histograms and shapes
- Spread and outliers
- Scatter and correlation
- A routine for exploring

Activity: Revise in pairs

1. Pairs (2 min): Work with a partner and share one sheet for your answers.
2. Quiz (15 min): Read each question, agree on an answer and say why.
3. Check (8 min): Compare with the answers and redo the ones you got wrong.

Discussion

- Which idea will you use first?
- Which table will you explore?
- Which claim will you question?

Check yourself

- One finding I will look for this week, and where.

Try it this week
Explore one small table from your own life with the five questions, and share one finding with a number.

Worksheet

Patterns in data: unit check

Data science · Level 2 · Unit check

Name _____ Class _____ Date _____

1 **What does each bar of a histogram show?**

◯ How many values are in its bin ◯ One person's value ◯ The mean

2 **In right-skewed data the median is usually above the mean.**

◯ True ◯ False

3 **Match each term to its meaning.**

Standard deviation	• • • •	A value far from the rest
IQR	• • • •	Spread of the middle half
Outlier	• • • •	Typical distance from the mean

4 **Use the IQR rule.**

Q1 = 20 and Q3 = 28, so the upper fence is _____ .

Word bank: 40 · 36

5 **You find a sleep time of 25 hours. What is it?**

◯ An impossible value to check and fix ◯ A good finding ◯ The median
