Lesson notes · for you

3. Project submission

Final stage: hand in evidence

Time
60 min

Materials
A computer with internet (a school computer lab is fine); A free GitHub account
Starter: https://github.com/darsi-org/agents-capstone

Learning goals

- Hand in each milestone with its evidence
- Show that darsi-check.json passes it
- Explain your work in your own words
- Get the decision from your teacher or the Darsi team

Activity: Do this

1. Paste your GitHub repo URL
2. Upload darsi-check.json
3. Explain in your own words
4. Tag v1.0 as a release before you send m5

Discussion

- Does darsi-check.json pass the milestone I'm sending?
- Which milestone do I send next?

Check yourself

- One sentence: what this stage asked me to understand or do.

Try it this week
Submit the next milestone with repo link and darsi-check.json.

Milestone sheet

3. Project submission

Final stage: hand in evidence

Name

Date

My GitHub repo link

Milestone 1: Write your tools as an MCP server

Time: about 3 hours
Hand in: tools/server.py, passing tests in tests/test_tools.py, and darsi-check.json that passes m1.

Finish by

Handed in on

What blocked me, and my next step

Milestone 2: The loop: a LangGraph agent with a trace

Time: about 4 hours
Hand in: agent.py, five traces, and darsi-check.json that passes m2.

Finish by

Handed in on

What blocked me, and my next step

Milestone 3: Guardrails: allow-lists and asking first

Time: about 3 hours
Hand in: Guardrail code, tests in tests/test_guardrails.py, and darsi-check.json that passes m3.

Finish by

Handed in on

What blocked me, and my next step

Milestone 4: Evaluate before you trust

Time: about 3 hours
Hand in: evals/tasks.jsonl, before/after table, and darsi-check.json that passes m4.

Finish by

Handed in on

What blocked me, and my next step

Milestone 5: Demo and design note

Time: about 3 hours
Hand in: Demo link, DESIGN.md, green Actions, v1.0, darsi-check.json that passes m5, and your explanation.

Finish by

Handed in on

What blocked me, and my next step
