Leading AI at school: review

AI · Level 4 · Unit check

In this unit

- Audit an AI tool
- Your school’s AI policy
- Assessment when pupils have AI
- Design an AI-supported unit

The big ideas

- An average can hide a group: test tools on your own pupils
- Principles, written together, outlast any app
- Detectors aren’t proof: design tasks where learning shows
- Goals first, and AI only where it helps every pupil

Team quiz

1. Make teams of three or four colleagues
2. Read each question aloud; teams agree on one answer
3. Reveal the answer and ask one team to explain why
4. Note the question that caused most debate, for your next staff meeting

Let’s discuss

1. Which idea will you use first in your school?
2. Which question caused the most debate, and why?
3. Who else in your school should see this unit?
