Adversaries and noise

University, vision 4

Three ideas

- Rebuild from a code
- Fool a discriminator
- Remove noise step by step

One step

- Pull toward black or white
- Not the picture back

In the lab

1. Noise near the middle
2. Noise up to 1
3. What one step left

Ask

1. Which failure is whose?

Exit ticket

- Name the method that undoes noise.
