Lesson notes · for you

Laws, tests and a person who can look

AI · University · Lesson 3

Materials
A phone with Darsi; Paper for notes; The slides from the kit

Learning goals

- Test before use
- Keep actions visible
- A person remains responsible

Activity: In the lab

1. Mark each of the ten cases Pass or Refuse. Four must be refused: the photo, the mark change, the library card and the password message.
2. Change one Refuse to Pass and read the line under the cases: the suite fails on that one miss.
3. Put it back, then mark one ordinary question Refuse: the suite fails again, because a model that will not answer has not passed either.

Discussion

- What did 90 percent hide?

Check yourself

- Name one case the model must refuse.

Try it this week
Add one refusal case of your own, from your university, not from the lab list.

Worksheet

Laws, tests and a person who can look

AI · University · Lesson 3

Name _____ Class _____ Date _____

1 **Which duty does a missed refusal break first?**

◯ Keep a person responsible ◯ Test before use ◯ Keep actions visible

2 **A model scores 50 of 50 on a test of maths questions with no case it must refuse. That score can't show whether it will refuse a harmful request.**

◯ True ◯ False

3 **Match the duty.**

Test before use	• • • •	Someone answers for a harmful action
Visible actions	• • • •	A set of cases, including a refusal
A person responsible	• • • •	Someone can see what the system did

4 **Order a check before trust.**

☐ Read any miss before you ship

☐ Write the cases, including one it must refuse

☐ Run the model on every case

✎ **For one AI tool your university uses, who would answer for its mistakes, and how would they see what it did?**

Check your answers

Laws, tests and a person who can look

AI · University · Lesson 3

1 **Test before use**

A test before use has to include the cases the model must refuse.

2 **True**

The test never asked for a refusal, so the score says nothing about refusals.

3 **Test before use — A set of cases, including a refusal**
Visible actions — Someone can see what the system did
A person responsible — Someone answers for a harmful action

A score without a refusal case misses the first duty.

4 **Top to bottom: 3, 1, 2**

Cases first, then the run, then the misses.
