# 1. Project description

## Why, what, hours, starter link

# You will

- Know why this capstone exists
- Plan about 16 hours across five milestones
- Find the starter template link
- Next: set up the starter, with screenshots

# Do this

1. Read the project map: why, what you build, the hours
2. Put the five milestones in your calendar, about 16 hours in all
3. Check you have a computer and the accounts on the Starter list
4. Then open 2. Starter

# Check yourself

1. Can I explain why this stage exists?
2. What do I open next?

# Before you go

- One sentence: what this stage asked me to understand or do.
