Review notes · for you

Smart but not always right: unit check

AI security · Primary school · Unit check

Materials
Paper and a pen. No device needed.

Learning goals

- AI makes guesses
- Wrong examples, wrong answers
- Keep your secrets
- Real or fake?

Activity: Team quiz

1. Make teams of three or four
2. Read each question aloud; your team agrees on one answer
3. Check the answer and say why
4. Write the hardest question on a card for tomorrow

Discussion

- Which habit from this unit will you use most?
- What surprised you most about AI?
- How would you explain “stop, think, ask” to a younger child?

Check yourself

- My most useful habit from this unit, and when I'll use it.

Try it this week
Pick the habit from this unit you need most (check what matters, keep your secrets, or stop, think, ask), use it every day this week, and teach it to someone at home.

Quiz sheet

Smart but not always right: unit check

AI security · Primary school · Unit check

Name _____ Class _____ Date _____

1 **How does AI learn?**

◯ By magic ◯ From lots of examples ◯ It knows everything from the start

2 **If an AI sounds very sure, it must be right.**

◯ True ◯ False

3 **Match each AI answer to what you do.**

A funny poem	• • • •	Ask a grown-up
Which berries are safe to eat	• • • •	Check your school book
A date for your history homework	• • • •	Just enjoy it

4 **Someone sneaks wrong labels into an AI's examples. What happens?**

◯ Nothing happens ◯ It gets smarter ◯ It learns the mistakes

5 **Adding wrong examples on purpose to spoil an AI is called data poisoning.**

◯ True ◯ False

6 **Which are secrets you never tell an app? Choose all that apply.**

☐ Your home address ☐ Your password ☐ Your favourite fruit ☐ Your phone number

7 **Which of these could repeat a secret you told it?**

◯ A calculator ◯ A chatbot ◯ A lamp

8 **Put the habit in order.**

☐ Ask a grown-up

☐ Stop

☐ Think

9 **Someone calls with your cousin's voice and asks for money. What do you ask for?**

◯ The family code word ◯ His favourite colour ◯ Nothing: just send it

10 **Complete the rule.**

Never make or _____ a fake of a real _____.

Word bank: enjoy · share · robot · person

Check your answers

Smart but not always right: unit check

AI security · Primary school · Unit check

1 **From lots of examples**

AI learns patterns from lots of examples, then guesses.

2 **False**

A chatbot sounds just as sure when it's wrong.

3 **A funny poem — Just enjoy it**
Which berries are safe to eat — Ask a grown-up
A date for your history homework — Check your school book

Fun things can just be enjoyed. Health and safety need a grown-up, and homework facts need your book.

4 **It learns the mistakes**

The labels are the AI's teacher. It can't tell a wrong label, so it learns the mistakes and gives more wrong answers.

5 **True**

That's right: spoiling the examples an AI learns from is called data poisoning.

6 **Your home address; Your password; Your phone number**

Your address, password and phone number are secrets.

7 **A chatbot**

A chatbot sends your words far away and can learn from them, so a secret could come out again.

8 **Top to bottom: 3, 1, 2**

First stop, so you don't rush. Then think about who sent it, and ask a grown-up before you do anything.

9 **The family code word**

AI can copy voices, but a fake voice won't know your family's secret code word.

10 **Never make or share a fake of a real person.**

Fakes of real people can hurt them badly, even as a joke.
