Review notes · for you

Spot AI tricks and fakes: unit check

AI security · Lower secondary · Unit check

Time	Materials
20 min	Paper and a pen. No device needed.

Learning goals

- Deepfakes and AI-made content
- AI-powered scams
- Hidden orders
- Jailbreaks and guardrails

Activity: Spot the trick

1. Warm-up (3 min): Recall one habit from each lesson.
2. Make (7 min): Write four made-up tricks: a fake, a scam, a hidden order, a jailbreak.
3. Swap (7 min): Another pair names each trick and the habit that beats it.
4. Share (3 min): Which trick was hardest to spot?

Use only made-up posts, messages and names. Never copy a real fake into your examples.

Discussion

- Which habit from this unit will you keep?
- Which trick surprised you most?
- How would you explain hidden orders to a younger student?

Check yourself

- My most useful habit from this unit, and when I'll use it.

Try it this week
Pick the habit from this unit you need most (the four checks, the family code word, comparing a summary with its source, or the report button) and use it every day this week.

Quiz sheet

Spot AI tricks and fakes: unit check

AI security · Lower secondary · Unit check

Name _____ Class _____ Date _____

1 **What is a deepfake?**

◯ Any blurry photo ◯ A photo, video or voice made or changed by AI to look real
◯ A video that has been shared many times

2 **A video with no glitches must be real.**

◯ True ◯ False

3 **Which checks help with a suspicious clip? Choose all that apply.**

☐ Search for the original ☐ Count how many people shared it ☐ Ask who gains if you believe it
☐ Look at the account that posted it ☐ Look for a trusted report

4 **A detector says a text is "probably made by AI". What does that mean?**

◯ It is proof the text was made by AI ◯ The text is definitely human ◯ It is a clue to look into, not proof

5 **Match each trick to the habit that beats it.**

A copied voice asks for money	• • • •	Use the official store
A "friend" asks for your code	• • • •	Ask for the family code word
A "free premium AI" app on a website	• • • •	Check it against the source
An AI summary tells you to click a link	• • • •	Never share codes

6 **Spelling mistakes are still the best way to spot a scam written with AI.**

◯ True ◯ False

7 **A voice note sounds exactly like your aunt: she needs airtime now. What's your first move?**

◯ Reply in the same chat and ask if it's really her ◯ Send it: it's her voice
◯ Call her usual number, or ask for the code word

8 **Put in order: how a hidden order reaches you through an AI summary.**

☐ You ask an AI to summarise the page
☐ The summary passes the order on to you
☐ Someone hides an order in a web page
☐ The AI reads the order as part of the text

9 **How do you stay in charge of an AI that reads things for you? Choose all that apply.**

☐ Give it permission to send anything it decides ☐ Check its summaries against the source
☐ Be suspicious of orders in a summary ☐ Don't let it send or buy without asking you

10 **Complete the sentence.**

Word filters miss _____ ; a check in _____ on the action holds.

Word bank: code · luck · rewording · spelling

Spot AI tricks and fakes: unit check

AI security · Lower secondary · Unit check

1. **A photo, video or voice made or changed by AI to look real**

   A deepfake is made or changed by AI to look or sound real: swapped faces, moved lips, copied voices or invented pictures.

2. **False**

   New tools fix the old glitches, so a perfect-looking video can still be fake.

3. **Look at the account that posted it; Search for the original; Look for a trusted report; Ask who gains if you believe it**

   The four checks look at the story behind the clip.

4. **It is a clue to look into, not proof**

   A detector gives a chance, not proof: honest writing is sometimes flagged, and a few edits can hide machine text.

5. **A copied voice asks for money — Ask for the family code word**
   A "friend" asks for your code — Never share codes
   A "free premium AI" app on a website — Use the official store
   An AI summary tells you to click a link — Check it against the source

   Each trick has a habit that works without spotting the fake: a code word for voices, codes kept secret, official stores for apps, and the real source for summaries.

6. **False**

   AI writes with perfect spelling in any language.

7. **Call her usual number, or ask for the code word**

   A voice can be copied from a short clip, and a scammer can answer in the same chat.

8. **Top to bottom: 2, 4, 1, 3**

   The order is planted first, then rides in with the page when you ask for a summary.

9. **Check its summaries against the source; Don't let it send or buy without asking you; Be suspicious of orders in a summary**

   Checking the source, keeping the yes for yourself and treating orders in a summary as suspicious keep you in charge.

10. **Word filters miss rewording; a check in code on the action holds.**

    A word list only knows its words, so a new wording walks past it.
