Find and fix bugs

Programming · Level 1 · Lesson 4

In this lesson you will

- Say what a bug is.
- Find the first step that goes wrong.
- Read a robot program written in words.

Key ideas

- Everyone makes bugs.
- Find the first wrong step, and change only that.
- forward(2), left(), right(): cards as words.

Activity: Bug detectives

1. Warm-up (3 min): Watch a robot program go wrong.
2. Write (7 min): Write a program and hide one bug.
3. Hunt (7 min): Swap; find your partner’s bug.
4. Share (3 min): How did you find it?

A coin or a bottle top makes a good robot on a paper grid.

Let's discuss

1. Why start with the first wrong step?
2. How did it feel to find a bug?
3. Why is it OK to make bugs?

Exit ticket

- Write the four detective steps.
