Notional machines and tracing

Programming · University · Lecture 3

In this lecture

- Define notional machines.
- Recognise misconceptions.
- Design diagnostic questions.

Remember

- Every student has a model.
- Trace, explain, write.
- Wrong answers diagnose.

Write diagnostic questions

1. Warm-up (5 min): What prints?
2. Teach (10 min): Catalogue.
3. Write (25 min): Distractors.
4. Swap (15 min): Test each other.
5. Wrap-up (5 min): One-minute paper.

Let’s discuss

1. Which misconception surprised you?
2. What makes a distractor diagnostic?
3. Where will you draw memory?

Exit ticket

- Write one distractor and the misconception it detects.
