Social media, pupils' photos and you

Cyber security · Level 3 · Lesson 3

Today we will

- Decide whether a pupil photo can be posted, and how.
- Find the details in a photo that give a child away.
- Keep personal and school accounts apart, and spot a fake school page.

Share the joy, not the details

- Consent first
- Groups, from behind, no full names
- Check the background; location tags off
- Personal profile private; official channels

Photo detectives

1. Warm-up (5 min): Forty sports-day photos.
2. Teach (8 min): Who, where, when.
3. Detectives (15 min): Three photos, every detail.
4. Share (7 min): Fix each photo.
5. Wrap-up (5 min): Five photo rules.

Prepare three photo descriptions on cards, or quick drawings: a close-up of a winner with her full name; a group at the school gate with the date and time; the team seen from behind. Use no real pupils.

Let’s discuss

1. Would you mind a stranger seeing this photo of you?
2. Which detail is easiest to miss?
3. What should the school do if a parent says no?

Exit ticket

- One detail that gives a child away + how to remove it.
