Lesson notes · for you

1. Project description

Why, what, hours, starter link

Time	Materials
15 min	A computer with a browser; Your GitHub account (and the tools listed in Starter) Starter: https://github.com/darsi-org/cyber-capstone

Learning goals

- Know why this capstone exists
- Plan about 17 hours across five milestones
- Find the starter template link
- Next: set up the starter, with screenshots

Activity: Do this

1. Read the project map: why, what you build, the hours
2. Put the five milestones in your calendar, about 17 hours in all
3. Check you have a computer and the accounts on the Starter list
4. Then open 2. Starter

Discussion

- Can I explain why this stage exists?
- What do I open next?

Check yourself

- One sentence: what this stage asked me to understand or do.
