Lesson notes · for you

Share with care

Cyber security · Level 2 · Lesson 3

Time
20 min

Materials
Paper and a pen; One post or rumour you saw this week (names removed)

Learning goals

- Ask before you post someone else.
- Spot fakes, and check before you share.
- Help someone who is bullied online.

Activity: Fact or fake?

1. Warm-up (3 min): Write down a rumour that spread at school or in your area (no names). How did you first hear it, and how did people find out the truth?
2. Check (8 min): Write three short posts: one true, one old story with a new date, one made up. Swap with a partner, and run the four checks on theirs: who made it, is it new, do trusted sources agree, is it pushing feelings?
3. Decide (4 min): For each post, choose: share, don't share, or check more first. Write one line on why.
4. Share (5 min): Explain one decision to your partner. Did you both decide the same? What would have helped you check faster?

Use posts you write yourself, or real ones with every name removed. Never use private images or posts that make fun of someone.

Discussion

- Why do fakes often spread faster than corrections?
- What would you do if a friend posted your photo without asking?
- How can you help someone who is bullied without making it worse?

Check yourself

- One of the four checks + a post I'd use it on.

Try it this week
The next time a shocking post reaches you, wait ten minutes before you share anything. Run the four checks, and tell a friend what you found.

Worksheet

Share with care

Cyber security · Level 2 · Lesson 3

Name _____ Class _____ Date _____

1 **A friend sends you a funny photo of a classmate asleep in class. Do you share it in the class group?**

◯ Yes, if I hide his name ◯ Not without asking him ◯ Yes: it's only a joke

2 **Mean comments about a classmate are spreading in a group chat. Put what you do in order.**

☐ Report the comments in the app

☐ Tell an adult you trust, and check on your classmate

☐ Don't reply, react or forward anything

☐ Take screenshots of the mean comments as evidence

3 **Which of these are warning signs that a post might be fake?**

☐ The photo turns out to be from years ago ☐ It was posted by the school's official page

☐ No trusted source is saying the same ☐ It makes you very angry or scared

☐ Lots of people have already shared it

4 **If a voice note sounds exactly like someone you know, it must be them.**

◯ True ◯ False

5 **Complete the sentence.**

Before you share, check who _____ it, whether it is new or _____, and whether _____ sources say the same.

Word bank: old · trusted · funny · made · liked

Think of a rumour or a fake that reached you or your friends. What gave it away, or what would have?

Share with care

Cyber security · Level 2 · Lesson 3

1 **Not without asking him**

It's his photo and his choice. Everyone in the class will know who it is, with or without a name, and a joke stops being funny when the whole school is laughing at you.

2 **Top to bottom: 3, 4, 1, 2**

Stop the spread first, then keep proof before it can be deleted, report it so the app can act, and bring in an adult so it really stops, and your classmate isn't alone.

3 **It makes you very angry or scared; No trusted source is saying the same; The photo turns out to be from years ago**

Strong feelings, no trusted source and an old photo with a new story are classic signs of a fake.

4 **False**

AI can now copy a voice from a short recording.

5 **Before you share, check who made it, whether it is new or old, and whether trusted sources say the same.**

Who made it, when it is from, and whether trusted sources agree: three of the four checks.
