Review notes · for you

Your digital footprint: unit check

Cyber security · Level 2 · Unit check

Time	Materials
20 min	Paper and a pen. No device needed.

Learning goals

- Every post leaves a trace
- Who knows where you are?
- Share with care
- Who else is watching?

Activity: Footprint makeover

1. Warm-up (3 min): Write one habit from each of the four lessons, in your own words.
2. Plan (7 min): Invent a teenager's profile: a few posts, settings and apps. Hide five risky details in it, such as a routine, live location left on, a friend's photo posted without asking, a shared rumour, or a game app with too many permissions.
3. Fix (7 min): Swap with a partner. Find the five risks in theirs and write how to fix each one.
4. Share (3 min): Explain your three best fixes, and which lesson each one came from.

Use only made-up names and details. The profile is a game, not anyone you know.

Discussion

- Which habit from this unit will you keep?
- What surprised you most about who can see your data?
- How would you explain your footprint to a younger student?

Check yourself

- My most useful habit from this unit + when I'll use it.

Try it this week
Pick the habit from this unit you need most, like the three-people test or the ten-minute rule, and use it every day this week.

Quiz sheet

Your digital footprint: unit check

Cyber security · Level 2 · Unit check

Name _____ Class _____ Date _____

1 **Which of these is part of your passive footprint?**

◯ A photo you posted ◯ How long you watched each video ◯ A voice note you sent ◯ A comment you wrote

2 **When you delete a post, every copy of it disappears.**

◯ True ◯ False

3 **A stranger reads these public posts. Which, together, could help them find you?**

☐ "I love mango juice" ☐ A photo in your school uniform ☐ "Same bus stop every morning at 7"
☐ A drawing you're proud of ☐ "Home alone all weekend!"

4 **A shocking post about your town is spreading in your class group. Put what you do in order.**

☐ Check who made it, when, and whether trusted sources agree
☐ Notice how it makes you feel: angry, scared or excited
☐ Share it only if it passes; if you're not sure, don't
☐ Pause: don't share it yet

5 **A quiz game asks for your contacts and your microphone. What is the best answer?**

◯ Allow contacts only ◯ Allow both, or it might not work ◯ Allow neither: a quiz doesn't need them

6 **Match each post to the warning sign it shows.**

Makes you furious in five seconds	• • • •	Old story, new date
A flood photo from years ago with today's date	• • • •	Could be an AI voice
Only one unknown account is saying it	• • • •	Pushes your feelings
Sounds exactly like your head teacher, asking for money	• • • •	No trusted source

7 **Complete the sentence.**

Private browsing stops _____ from saving your history, but the _____ and the websites can still see you.

Word bank: Wi-Fi network · screen lock · this phone · padlock

8 **A photo can carry the place where it was taken, inside the file.**

◯ True ◯ False

9 **Which is the best example of a footprint that works for you?**

◯ Your full timetable and your bus route ◯ A science project you made, shared publicly
◯ A screenshot of a friend's private chat

10 **You're on a cyber café computer. Which are good habits?**

☐ Sign out when you finish ☐ Pay with mobile money over the café's Wi-Fi ☐ Never tick "Remember me"
☐ Use a private window ☐ Save your password so it's faster next time

Check your answers

Your digital footprint: unit check

Cyber security · Level 2 · Unit check

1. **How long you watched each video**
   Watch time is collected without you sharing anything on purpose: that is your passive footprint.

2. **False**
   Deleting removes your copy only. Screenshots, downloads and forwards that other people made stay where they are.

3. **"Same bus stop every morning at 7"; A photo in your school uniform; "Home alone all weekend!"**
   A routine, a school and a time when you're alone tell a stranger where and when to find you.

4. **Top to bottom: 3, 1, 4, 2**
   The feeling is your alarm, so notice it first and pause before your thumb taps Share.

5. **Allow neither: a quiz doesn't need them**
   Ask whether the app needs it to do its job.

6. **Makes you furious in five seconds — Pushes your feelings**
   A flood photo from years ago with today's date — Old story, new date
   Only one unknown account is saying it — No trusted source
   Sounds exactly like your head teacher, asking for money — Could be an AI voice
   Naming the sign helps you pause and check before you share, instead of passing a fake on.

7. **Private browsing stops this phone from saving your history, but the Wi-Fi network and the websites can still see you.**
   Private browsing protects only the device you use.

8. **True**
   Many phone cameras save the location in each photo file, and some apps pass it on.

9. **A science project you made, shared publicly**
   A project shows what you can do, and it's something good for a future school or employer to find.

10. **Use a private window; Sign out when you finish; Never tick "Remember me"**
    A private window, signing out and never "Remember me" leave nothing behind for the next person.
