Ask, count, tally

Data engineering · Level 1 · Lesson 1

In this lesson you will

- Say what data is.
- Collect answers with tally marks.
- Count carefully, in fives.

Key ideas

- Data is facts that answer a question.
- Four lines, then the fifth goes across.
- Write each name the same way.

Our class question

1. Ask (3 min): one question for the class
2. Tally (5 min): one line for each answer
3. Count (4 min): count in fives
4. Share (3 min): which answer won?

Choose a question with no private answers, such as snacks, fruit or colours.

Let’s discuss

1. Why are tally marks quicker than writing every answer?
2. How did we check our count?
3. Why does a computer think Musa and Moussa are two pupils?

Exit ticket

- Draw twelve with tally marks.
