Standard deviation and outliers

Data science · Level 2 · Lesson 2

Today we will

- Read a standard deviation.
- Flag outliers with the IQR rule.
- Check outliers before acting.

Remember

- SD: typical distance from the mean.
- Outlier: beyond 1.5 × IQR.
- Check, don’t delete.

Spread detectives

1. Warm-up (5 min): Same mean, same class?
2. Teach (8 min): SD and the IQR rule.
3. Find (15 min): Outliers in real data.
4. Investigate (7 min): Typo or true?
5. Wrap-up (5 min): What did we find out?

Let's discuss

1. When does a large SD matter to a teacher?
2. Why not delete outliers?
3. Which outlier surprised you?

Exit ticket

- Q1 is 20 and Q3 is 30. Write the two fences.
