Relationships

Data science · Level 2 · Lesson 3

In this lesson you will

- Draw and read a scatter plot.
- Read a correlation r.
- Ask what else could explain a pattern.

Key ideas

- One dot per pupil.
- r from -1 to 1.
- Together is not cause.

A class scatter chart

1. Warm-up (5 min): Do they go together?
2. Plot (10 min): One dot each.
3. Discuss (10 min): Pattern or cause?
4. Wrap-up (5 min): What did you find out?

Let’s discuss

1. How strong was our pattern?
2. What links ice cream and sunburn?
3. How could we test a cause fairly?

Exit ticket

- Sketch a scatter plot with r close to -0.9.
