Data science and society: review

Data science · Level 4 · Unit check

In this unit

- Samples and margins
- Finding groups
- Fair models
- Deciding with data

The big ideas

- Report a range
- Groups are not verdicts
- Check every group
- Trial fairly, then decide

Revise in pairs

1. Pairs (2 min): Find a partner.
2. Quiz (15 min): Answer together.
3. Check (8 min): Compare with the answers.

Let's discuss

1. Which idea from this unit will you use first?
2. Which app or survey will you check for fairness?
3. Which hunch will you test with data?

Exit ticket

- One small fair trial I could run at my school or college, and its comparison group.
