Teaching statistical learning at university: review

Data science · University · Unit check

In this unit

- Sampling and the bootstrap
- Bias, variance and CV
- Causal inference
- Module design

The big ideas

- The 95% belongs to the method
- Judge on unseen data
- Draw the DAG first
- Assess the verbs you teach

Peer-instruction review

1. Vote (10 min): Answer alone first.
2. Discuss (15 min): Convince your neighbour.
3. Explain (10 min): Model the reasoning.
4. Plan (5 min): Next week’s fix.

Let’s discuss

1. Which misconception will you target first?
2. Which lab will you run this term?
3. Which assessment will you change?

Exit ticket

- One change I will make to my module this term, and how I will know it worked.
