3. Project submission

Final stage: hand in evidence

You will

- Hand in each milestone with its evidence
- Show that darsi-check.json passes it
- Explain your work in your own words
- Get the decision from your teacher or the Darsi team

Do this

1. Paste your GitHub repo URL
2. Upload darsi-check.json
3. Explain in your own words
4. Tag v1.0 as a release before you send m5

Check yourself

1. Does darsi-check.json pass the milestone I’m sending?
2. Which milestone do I send next?

Before you go

- One sentence: what this stage asked me to understand or do.
