Time	Materials
45 min	A browser; An email you can open

Learning goals

- GitHub account if needed
- Use this template → your repo
- Codespaces or local terminal
- venv + pip + python check.py

Activity: Do this

1. GitHub account if needed
2. Use this template → your repo
3. Codespaces or local terminal
4. venv + pip + python check.py

Discussion

- Did check.py write darsi-check.json?
- Do I have my repo URL?

Check yourself

- One sentence: what this stage asked me to understand or do.

Try it this week

Run python check.py once on your copy and open darsi-check.json.
