2. Starter

Photos + exact clicks

You will

- GitHub account if needed
- Use this template → your repo
- Codespaces or local terminal
- venv + pip + python check.py

Do this

1. GitHub account if needed
2. Use this template → your repo
3. Codespaces or local terminal
4. venv + pip + python check.py

Check yourself

1. Did check.py write darsi-check.json?
2. Do I have my repo URL?

Before you go

- One sentence: what this stage asked me to understand or do.
